Microsoft

MB6-886 PRACTICE EXAM

Microsoft Dynamics AX 2012 Process Manufacturing Production

Product Questions: 99
Version: 10.0

Question: 1

Which of the following statements about implementing product compliance in Microsoft Dynamics AX 2012 are true? (Each correct answer is a complete solution. Choose three.)

A. Regulated products can be defined in Microsoft Dynamics AX 2012.
B. Safety data sheets can be created in Microsoft Dynamics AX 2012.
C. Restricted products can be defined in Microsoft Dynamics AX 2012.
D. Safety data sheets can be stored in Microsoft Dynamics AX 2012.

Answer: A, B, C

Question: 2

A customer requests information about the physical and chemical properties of a product and the recommended precautions for handling storage and disposal of the product. Which of the following should you provide to the customer?

A. Restricted products regional list
B. product safety data sheet
C. product attributes list
D. Regulated products regional list

Answer: B

Question: 3

You are implementing product compliance in Microsoft Dynamics AX 2012. What is the purpose of the Archive directory as it relates to document handling?

A. to define the archive criteria
B. to describe the type of documents stored
C. to define the file type
D. to define the path to the document storage location

Answer: D

Question: 4

You need to ensure that a notification is sent to the compliance manager when a sales order is entered for a product if the corresponding product safety data sheet has expired. Which product compliance parameter should you set?

A. Expiry advice interval in purchase

B. Expiry advice interval in sales
C. Expiry in purchase
D. Expiry In sales

Answer: D

Question: 5

In Microsoft Dynamics AX 2012which of the following describes a reported product?

A. An item that requires continuous compliance.
B. An item that is sourced through intercompany planning.
C. An item with distribution that is limited or constrained by a government authority.
D. An item that is regulated by national regional and local authorities.

Answer: D

Question: 6

For which of the following production types can you define a planning formula in Microsoft Dynamics AX 2012?

A. formula
B. by-product
C. co-product
D. planning item

Answer: C

Question: 7

You need to set up consolidated batch orders to link a bulk order to packed orders. Which of the following actions is part of the setup process?

A. Define the bulk item conversion for by-product items.
B. Define the bulk item conversion for formula items.
C. Define the bulk item conversion for planning item items.
D. Define the bulk item conversion for BOM items.

Answer: B

Question: 8

Which of the following characteristics apply only to a formula item and NOT to a bill of materials (BOM) item?

A. Default order settings apply to the item.
B. The item must be defined at the organization level.
C. The item must have the serial tracking dimension.
D. The production of the item can result in the production of co-products.

Answer: D

Question: 9

An item in a production batch must be retested in 30 days to validate that it meets standards. You need to generate a report that informs you to retest the production batch in 30 days. What should you do?

A. Set the Shelf life period in days to 30.
B. Set the Shelf advice period in days to 30.
C. Set the Best before period in days to 30.
D. Set the Expiration date to 30 days from the manufacturing date.

Answer: B

Question: 10

Which of the following manufacturing requirements does process manufacturing address?

A. batch production
B. contract manufacturing
C. Lean manufacturing
D. engineer to order

Answer: D

Question: 11

Which dimension can be created only at the enterprise level in Microsoft Dynamics AX 2012?

A. size
B. warehouse
C. batch number
D. site

Answer: A

Question: 12

The formula for a finished good named FG-01 uses a raw material named RM-01. You currently have a supply of RM-01 in stock. The vendor informs you that only limited supplies of RM-01 will be available in the future. After you run out of the current supply of RM-01you will substitute a raw material named RM-02 in the FG-01 formul
a. Which of the following options must you configure on a formula line to allow raw material substitutions in Microsoft Dynamics AX 2012?
A. Percent and Priority
B. Plan group and Priority
C. Scalable and Percent controlled
D. Step consumption

Answer: B

Question: 13

You receive unplanned co-products and by-products on a batch order in Microsoft Dynamics AX 2012. The Total cost allocation option is not selected for the batch order. Which of the following must occur for the batch order to be ended?

A. Unplanned co-product cost allocation must be entered.
B. Formula item cost allocation must be changed.
C. Total co-product and by-product receipt quantity must match the estimated quantity.
D. Planning item cost allocation must be changed.

Answer: A

Question: 14

Which of the following statements about the batch order life cycle is true?

A. production costs are posted when a formula item is reported as finished.
B. Purchase orders for batch order formula line items defined with vendors are created when a batch order is started.
C. Capacity reservations are made after a batch order is released.
D. Materials can be reserved automatically during batch order estimation.

Answer: D

Question: 15

You need to explode and consume the ingredients of a formula item in a batch process. In the Formula line form which line type should you use for the formula item?

A. vendor
B. item
C. phantom
D. pegged supply

Answer: C

Question: 16

A standard cost variance has affected the general ledger accounts assigned to the lot size variance type of a specific batch order. What is the cause of a lot size variance?

A. different batch quantity or constant costs
B. different costs reported
C. changes to production bill of materials (BOM) or route
D. different quantity consumed

Answer: C

Question: 17

To which of the following logistic processes can a formula version be assigned? (Each correct answer is a complete solution. Choose two).

A. master planning
B. route consumption
C. manufacturing
D. transfer orders

Answer: B, C

Question: 18

A sales order exists in Microsoft Dynamics AX 2012 for an item with the co-product production type. The item is not in stock. You plan to perform master planning to create a planned batch order to produce the co-product. Which of the following must you do before performing the master planning?

A. Create a planning item for the co-product.
B. Set the default order type to Production.
C. Create a planned order for the co-product.
D. Create a formula for the co-product.

Answer: A

Question: 19

Which of the following items are considered when performing master planning specific to process manufacturing? (Each correct answer is a complete solution. Choose two.)

A. batch attribute-based reservation of items
B. shelf life
C. gross requirement calculations
D. batch disposition codes

Answer: B, C

Question: 20

When are intercompany planning groups required in Microsoft Dynamics AX 2012?

A. When you need to automate multi-company planning.
B. When you need to use master planning at multiple sites.
C. When you set up multiple companies.
D. When a company has multiple sites.

	Answer: A

Question: 21

You are creating an intercompany sales order in Microsoft Dynamics AX 2012. What is the effect of selecting the direct delivery option in the sales order?

A. An intercompany purchase order is created.
B. The delivery is made directly to the vendor.
C. The delivery is made directly to the customer.
D. An intercompany sales order is created at the intercompany vendor.

	Answer: C

Question: 22

Which dimension must be entered on all inventory transactions in Microsoft Dynamics AX 2012 when only site locations are used for process manufacturing?

A. batch dimension
B. warehouse dimension
C. site dimension
D. serial numbers dimension

	Answer: C

Question: 23

You plan to perform master planning for a co-product item in Microsoft Dynamics AX 2012. Which of following statements about co-product planning are true? (Each correct answer presents a complete solution. Choose two.)

A. You can plan a co-product together with either a formula item or a planning item.
B. You can plan a co-product with or without a planning formula reference.
C. You can plan a co-product together with a bill of materials (BOM) item.
D. You can plan a co-product together with both a formula item and a planning item.

	Answer: A, B

Question: 24

You are configuring shelf life for items in Microsoft Dynamics AX 2012. With which of the following item properties should you associate the shelf life?

A. production type
B. serial number dimension
C. coverage by dimension
D. batch tracking dimension

Answer: D

Question: 25

Which of the following statements about batch attributes in Microsoft Dynamics AX 2012 is true? (Each correct answer presents a complete solution. Choose two.)

A. Batch attributes must be customer-specific.
B. Batch attributes can be product-specific and vendor-specific.
C. Batch attributes must be vendor-specific.
D. Batch attributes must be product-specific.
E. Batch attributes can be customer-specific and product-specific.

Answer: A, D

Question: 26

You plan to configure the shelf life for a released item. You are assigning an item model group to the item. Which of the following reservation parameters must the item model group have? (Each correct answer is a complete solution. Choose two).

A. Backward from ship date
B. FEFO date-controlled
C. Pick criteria
D. LIFO date-controlled

Answer: A, B

Question: 27

In Microsoft Dynamics AX 2012which of the following can you use to control whether an inventory batch is available for reserving picking and shipping?

A. production type
B. master planning
C. batch disposition code
D. shelf life

Answer: D

Question: 28

You create a sales order and reserve inventory for an item that has customer-specific batch attributes. The customer requests that you change the range of attributes for the item to accommodate a specific customer's needs. What should you do? (Each correct answer presents part of the solution. Choose two.)

A. Create a customer specific item-level attribute relationship.
B. Change the search parameters and reserve the inventory.
C. Remove the customer-specific batch attribute.

D. Remove the reservation on the sales order line.

Answer: B, D

Question: 29

You need to have multiple price calculations for the same cost basis in Microsoft Dynamics AX 2012.
Which condition must be met for this to occur?

A. The site must be different for each cost basis type.
B. The effective periods must not overlap.
C. The effective periods must overlap.
D. The effective periods must be blank.

Answer: B

Question: 30

A company has three sites: Site1Site2and Site3. The company has centralized procurement. All commodity ingredients are received against purchase orders at Site1 and then transported to Site2 and Site3 as needed. A buyer group manages the procurement of commodity ingredients. Item-CO1 is a commodity ingredient. You need to set up the commodity pricing for item C01for Site2 and Site3in Microsoft Dynamics AX 2012. Which of the following elements must you define?

A. difference
B. price plus
C. previous cost
D. buyer group

Answer: D

Question: 31

What is the purpose of the Create price and margin data form in Microsoft Dynamics AX 2012?

A. To create price and margin for only category items.
B. To calculate the sales price of formula items that use commodity items.
C. To calculate the sales price and sales margin for all item types.
D. To create price and margin for only configurable formula items.

Answer: B

Question: 32

What is the purpose of the commodity pricing template in Microsoft Dynamics AX 2012?

A. To control the number of lines that can be defined in the chain.
B. To filter records in the Price margin update - lines form.
C. To define the cost multiplier and margins for each set of price break quantities.

D. To update the trade agreement journal with the new sales price for a commodity.

Answer: C

Question: 33

Which of the following can you define by using a pricing template? (Each correct answer presents a complete solution. Choose two.)

A. item groups by customer groups all customers
B. items by customer groups all customers
C. item groups by vendor groups all vendors
D. items by vendor groups all vendors

Answer: A, B

Question: 34

Which of the following are valid actions for the approved vendor list (AVL) in Microsoft Dynamics AX 2012? (Each correct answer is a complete solution. Choose three.)

A. Delete an approved vendor from an item.
B. Add an approved vendor to an item.
C. Change the end date for an approved vendor.
D. Mark an approved vendor as Pending.

Answer: A, B, C

Question: 35

You are viewing approved vendor expiration dates in the Procurement and Sourcing module of Microsoft Dynamics AX 2012. The Include never expired option is not selected. Which of the following statements about the As of field are true? (Each correct answer is a complete solution. Choose three.)

A. If the As of field is blank the Approved vendor list displays only vendors for whom an expiring end date is not specified.
B. If the As of field is blank the Approved vendor list does not display vendors for whom an expiring end date is not specified.
C. The Approved vendor list expiration form displays vendors whose approvals expire before the date displayed in the As of field.
D. The Approved vendor list expiration form displays vendors whose approvals expire on the date displayed in the As of field.

Answer: B, C, D

Question: 36

You need to change the approved vendor list (AVL) check method for an item from Not allowed to Warning only. In which Microsoft Dynamics AX 2012 form can you change the AVL check method?

A. the Purchase order form
B. the Released products form
C. the Vendor form
D. the Planned order form

Answer: B

Question: 37

In Microsoft Dynamics AX 2012you set the approved vendor list (AVL) check method for a new item to Warning only. You do not specify a vendor account in the Approved vendor list by item form. You create a purchase order for the item and post the purchase order. What is the result?

A. You cannot create the purchase order line because no vendor has been chosen.
B. A message advises that you must select an approved vendor to proceed with the transaction.
C. A message advises that the vendor code is not authorized for the selected item.
D. You can confirm and continue with the purchase order without any warning message.

Answer: C

Question: 38

You set up an approved vendor list (AVL) check method of Not allowed in Microsoft Dynamics AX 2012. There are no approved vendors for the item. You attempt to select a vendor for a planned purchase order. What is the result?

A. A message states that the vendor is not in the approved vendor list and the transaction is aborted.
B. A message states that the vendor is not in the approved vendor list and you can continue the transaction.
C. A message states that the vendor code is not approved for this item and you cannot firm the planned order.
D. A message states that no check has been performed.

Answer: A

Question: 39

You are setting up rebate processing in Microsoft Dynamics AX 2012. Which of the following amount type options can be used to define the rebate value? (Each correct answer presents a complete solution. Choose three.)

A. Fixed amount
B. Amount per unit
C. Amount per order
D. Percentage

Answer: A, B, D

Question: 40

In Microsoft Dynamics AX 2012which of the following are valid rebate groups? (Each correct answer presents a complete solution. Choose two.)

A. customer freight groups
B. item Trade and Merchandising Allowance (TMA) groups
C. item freight groups
D. customer Trade and Merchandising Allowance (TMA) groups

Answer: A, D

Question: 41

Which of the following payment types are valid for rebate agreements? (Each correct answer is a complete solution. Choose two.)

A. credit note
B. trade spending
C. cash payment
D. customer deduction

Answer: B, D

Question: 42

Which type of rebate is typically processed by sending a check to the customer or by deducting the rebate amount from the customer's invoice in Microsoft Dynamics AX 2012?

A. Freight rebate
B. Free
C. Trade and Merchandising Allowance (TMA) rebate
D. Rebate

Answer: D

Question: 43

Item C-01 is a catch weight (CW) item with the following specifications:
. CW Unit = ea
. Inventory unit = Kg
. Minimum quantity = 0.8
. Nominal quantity = 1.1
. Maximum quantity = 1.21
Item C-01 is a partial visibility CW item with an on-hand available physical CW inventory of 1000 ea and a corresponding inventory quantity of 1050 Kg in inventory batch Batch-01. You perform a reservation against a new sales order line for 100 CW units of item C-01 against Batch-01. What inventory quantity will be reserved?

A. 100 kg
B. 80 kg
C. 110 kg
D. 120 kg

Answer: C

Question: 44

What takes precedence over the reservation performed in the shipment entity in advanced warehouse management in Microsoft Dynamics AX 2012?

A. a warehouse reservation performed in shipments
B. a batch reservation performed from the sales order line
C. a warehouse reservation performed in a location
D. an inventory reservation performed from the sales order line

Answer: C

Question: 45

For which of the following production types can you set up a catch weight item? (Each correct answer is a complete solution. Choose two).

A. by-product
B. bill of materials (BOM)
C. co-product
D. planning item

Answer: A, C

Question: 46

Which of the following statements about processing a consolidated batch order is true?

A. After a planned consolidated batch order is firm edit cannot be modified.
B. The status of the consolidated batch order reflects the highest status of the associated bulk item and packed item orders.
C. Bulk item and packed item orders are available to be processed individually or as a group.
D. Starting a consolidated batch order starts the associated bulk item and packed item orders.

Answer: C

Question: 47

What is the primary purpose of the Containerized Packaging feature of Microsoft Dynamics AX 2012?

A. To group batch orders and purchase orders together.
B. To view production orders and batch orders in a common interface.
C. To produce and fully consume a bulk item into packed items.
D. To group batch orders and sales orders together.

Answer: D

Question: 48

You receive a full pallet of a catch weight (CW) item. You create a purchase order line and confirm the purchase order in Microsoft Dynamics AX 2012. You need to transfer the item from the inbound location. What should you do first?

A. Start the item arrival process.
B. Start the item transport process.
C. Post the receipt list.
D. Post the product receipt.

Answer: C

Question: 49

A member of the Manager group is also a member of the AP group. The AP group has been given Insert rights to the Voucher and Adjustment Entry window. The Manager group has been given Delete rights to the Voucher and Adjustment Entry window. What is the highest level of rights that this member will have in the Voucher and Adjustment Entry window?

A. Delete
B. Initialize
C. Insert
D. Update

Answer: A

Question: 50

What does pressing the F2 key do in Microsoft Dynamics SL?

A. populates the current date in a date field
B. edits a field in grid view or enters a formula in a date or period field
C. clears a field in form view
D. opens Microsoft Dynamics SL Help

Answer: B

Question: 51

What does pressing the F9 key do in Microsoft Dynamics SL?

A. edits a field in grid view
B. opens Microsoft Dynamics SL Help
C. opens the Notes window
D. enters a formula in a date or period field

Answer: C

Question: 52

When you are entering data in Microsoft Dynamics SL, what does pressing the F7 key do?

A. shows a list of possible values for the field of focus
B. starts the VBA editor
C. opens the Controls Property window
D. populates the current business date in a date field

Answer: D

Question: 53

Which of the following are areas within Role Center? Choose the 2 that apply.

A. Activities
B. Quick Links
C. Quick Lists
D. Reports

Answer: A, C

Question: 54

Which files are required to run Transaction Import? Choose the 2 that apply.

A. Control Macro
B. Data
C. Import Instruction
D. Transaction

Answer: A, B

Question: 55

Which of the following actions require initialize rights in Microsoft Dynamics SL? Choose the 2 that apply.

A. changing the business date in Microsoft Dynamics SL
B. changing the Sysadmin user password
C. entering amounts into balance fields
D. deleting released but un-posted batches

Answer: C, D

Question: 56

Where are Microsoft Dynamics SL 2011 menus stored? Choose the 2 that apply.

A. in the System database
B. in a TXT file on the workstation
C. in XML files on the workstation
D. in the Delta.mnu file on the server

Answer: A, C

Question: 57

You need to set up a security group for existing Microsoft Dynamics SL users who use the Accounts Payable module windows. Which of the following windows should you use? Choose the 2 that apply.

A. Access Rights Maintenance
B. Group Maintenance
C. User Maintenance
D. Screen Maintenance

Answer: A, B

Question: 58

In which of the following locations can Document Attachment source documents be stored? Choose the 2 that apply.

A. on each user local workstation on each user? local workstation
B. in a Microsoft SharePoint document library
C. in a network folder
D. in a table in the Application database

Answer: B, C

Question: 59

What application would you use to modify a standard Microsoft Dynamics SL report?

A. Crystal Reports
B. FRx Reports
C. Management Reporter
D. Windows Report Builder

Answer: A

Question: 60

Which of the following items is the most important to back up frequently?

A. application databases
B. custom reports
C. Microsoft Dynamics SL program files
D. system databases

Answer: A

Question: 61

You are distributing burden amounts from by-products based on a ratio of the by-product quantity to the formula size quantity. On the Formula lines form, which Burden value should you select on the formula version?

A. Per quantity
B. None
C. Percent
D. Per series

Answer: D

Question: 62

Which of the following items impact multisite master scheduling in the Master Planning module of Microsoft Dynamics AX 2012? (Each correct answer is a complete solution. Choose three.)

A. item coverage
B. production parameters
C. routes
D. site-specific formulas

Answer: A, C, D

Question: 63

What are the prerequisites for creating processing a consolidated batch order? (Each correct answer presents a complete solution. Choose two.)

A. A bulk item batch order must exist.
B. A sales order for the bulk item must exist.
C. Bulk item conversion must be defined for the packed item.
D. The bulk item must be defined in the formula version for the packed product.

Answer: C, D

Question: 64

You are creating a batch attribute in Microsoft Dynamics AX 2012.
Which attribute type represents a specific sequence of values?

A. Integer
B. Fraction
C. Enumerate
D. String

Answer: C

Question: 65

Which of the following are steps in troubleshooting system bottlenecks? Choose the 2 that apply.

A. Repeat monitoring after every change.
B. Make all changes in a given area together.
C. Make one change at a time.
D. Verify with the users that the system is faster.

Answer: A, C

Question: 66

When creating a company in Management Reporter, what should you do if the Microsoft Dynamics SL source system is not in the list? Choose the 2 that apply.

A. Stop and restart the Internet Information Services (IIS) service.
B. Close out of the company window and start the process again.
C. Recycle the Management Reporter application pool within Internet Information Services (IIS).
D. Type Microsoft Dynamics SL into the field.

Answer: A, C

Question: 67

What is the purpose of the Microsoft Dynamics SL Application Server?

A. to authenticate Microsoft Dynamics SL users when they log in
B. to manage access to the Microsoft Dynamics SL program files
C. to manage access to the Microsoft SQL Server databases
D. to offload printing and processing to a designated machine

Answer: D

Question: 68

What do Microsoft Dynamics SL module integrity checks do?What do Microsoft Dynamics SL? module integrity checks do? Choose the 2 that apply.

A. validate SQL indexes on the tables used by the module
B. compare user access rights with records in the tables across the module
C. compare data within the module for accuracy
D. validate data across the module tables

Answer: C, D

Question: 69

If you want to see which users are logged into Microsoft Dynamics SL and what windows they are currently using, where would you look?

A. the Active Users utility under the Administration group
B. the Event Log Viewer utility under the Administration group
C. the SQL Server logs in Microsoft SQL Server Management Studio
D. the Event Viewer in the Administrative Tools group

Answer: A

Question: 70

You are working in a process manufacturing environment with regulated products.
What is a mandatory action for the purchase sale of each item in Microsoft Dynamics AX 2012?

A. tracking the sales of each item
B. tracking the purchases of each item
C. checking the availability validity of the safety data sheet
D. tracking the sales purchases of each item

Answer: C

Question: 71

How often should the Microsoft Dynamics SL databases be backed up? Choose the 2 that apply.

A. daily for lower transaction usage
B. weekly for higher transaction usage
C. multiple times a day for higher transaction usage
D. monthly for lower transaction usage

Answer: A, C

Question: 72

Which of the following are Microsoft Dynamics SL 2011supporting products?

A. Data Provider for Management Reporter
B. Check Factory
C. Positive Pay
D. Microsoft Dynamics SL Web Services

Answer: A

Question: 73

Which of the following are prerequisites for installing the Management Reporter Connector? Choose the 2 that apply.

A. The Management Reporter Migration Wizard must be run.
B. Microsoft SQL Server reporting services must be installed and running.
C. Management Reporter server components must be installed.
D. User permissions to Management Reporter must also exist in Microsoft Dynamics SL.

Answer: C, D

Question: 74

Which of the following is a valid batch disposition setting for master planning purposes in Microsoft Dynamics AX 2012?

A. Nettable
B. Unavailable
C. Available
D. No Pick

Answer: A

Question: 75

For which of the following production types can you allocate the total cost of a batch order in Microsoft Dynamics AX 2012? (Each correct answer presents a complete solution. Choose two.)

A. by-product
B. co-product
C. formula
D. planning item

Answer: B, C

Question: 76

You plan to use catch weight (CW) products in advanced warehouse management functions in Microsoft Dynamics AX 2012.
Which of the following must you define for the CW products? (Each correct answer is a complete solution. Choose three).

A.CW pallet quantity
B.CW Min. output pallet quantity
C.CW Max. output pallet quantity
D.CW quantity per layer

Answer: A, B, D

Question: 77

Which of the following statements about formula versions in Microsoft Dynamics AX 2012 are true? (Each correct answer presents a complete solution. Choose two.)

A. Formula versions require a default site.
B. Formula versions allow specification of yield.
C. Formula versions require a route association.
D. Formula versions can be defined for a quantity greater than one.

Answer: B, D

Question: 78

When are the effective date expiration date of an approved vendor list (AVL) verified in Microsoft Dynamics AX 2012?

A. When you save an item after adding an approved vendor to the item.
B. When you create save a new item.
C. When you submit a transaction for an item that uses the AVL check method.
D. When you post a transaction to the General Ledger.

Answer: C

Question: 79

You are using intercompany planning in Microsoft Dynamics AX 2012.
You create a purchase order in company A, with company B as the vendor.
What does Microsoft Dynamics AX 2012 create in company B?

A. an intercompany general ledger posting
B. an intercompany sales order
C. an intercompany inventory transfer
D. an intercompany purchase order

Answer: B

Question: 80

You are planning for the replenishment of shelf-life items in Microsoft Dynamics AX 2012.
Which of the following requirements must be met?

A. The Consider shelf life option must be selected on the master plan.
B. Items must be formula items.
C. Items must be serial-controlled items.
D. The coverage group¡¯s coverage code must be set to Shelf life.

Answer: A

Question: 81

In which of the following groups can you configure reservation-related settings provided by the Microsoft Dynamics

AX 2012 process manufacturing features?

A. item model group
B. product dimension group
C. item group
D. coverage group

Answer: A

Question: 82

You plan to delete specific rebates by using the Purge rebate form.
Which of the following statuses must a rebate have so that it can be purged? (Each correct answer presents a complete solution. Choose two.)

A. Approved
B. Completed
C. Mark
D. To Be Calculated

Answer: B, C

Question: 83

Which of the following statements about regulated items restricted items are true? (Each correct answer presents a complete solution. Choose two.)

A. Regulated items usually have country-specific safety data sheets.
B. Restricted items usually have country-specific safety data sheets.
C. Regulated items may be inclusive or exclusive to a geographical area.
D. Restricted items may be inclusive or exclusive to a geographical area.

Answer: A, D

Question: 84

You are adding an approved vendor to a specific item in Microsoft Dynamics AX 2012.
What is the result of leaving the expiration date blank?

A. The approval period is invalid.
B. The effective date is invalid.
C. The approval period expires at the end of the fiscal year.
D. The approval period never expires.

Answer: D

Question: 85

You are applying a product template to an existing released product in Microsoft Dynamics AX 2012.

Which of the following parameters must be identical between the product template the released product? (Each correct answer presents a complete solution. Choose three.)

A. configuration technology
B. item model group
C. product model group
D. product subtype
E. product type

Answer: A, D, E

Question: 86

Which of the following template item properties will transfer to a new item that has been created by using a product template? (Each correct answer presents a complete solution. Choose three.)

A. approved vendor list (AVL) check method
B. catch weight unit
C. shelf-life period in days
D. yield percent

Answer: A, C, D

Question: 87

Which of the following is a characteristic of a bill of materials (BOM) item in Microsoft Dynamics AX 2012?

A. a fixed quantity of components produces only an output of one unit
B. produced together with a by-product
C. can contain a catch weight ingredient
D. produced in a batch size

Answer: A

Question: 88

You are defining the parameters for product compliance product safety data sheets in Microsoft Dynamics AX 2012. Which of the following are valid actions when a product safety data sheet expires? (Each correct answer presents part of the solution. Choose two.)
